- Les quantités données sont les quantités utiles au montage. les sachets fournis contiennent des pièces supplémentaires.
  - De aangegeven aantallen zijn vereist voor de montage. De verpakking bevat extra onderdelen.
- Die Mengenangaben beziehen sich auf die für die Montage nötigen Teile. Eventuell weitere beige packte Teile ignorieren.

- F Matériel nécessaire  
 ● NL Benodigd gereedschap  
 ● D Benötigtes Werkzeug

Utiliser un silicone adapté au matériau de chaque support (faïence, acrylique, etc.)

Gebruik siliconenkit die geschikt is voor iedere ondergrond (tegelwerk, acryl, etc.)

Für das jeweilige Trägermaterial (Stein, Acryl usw.) geeignetes Silikon verwenden

• D'éventuelles irrégularités de surface sur le dessous de votre receveur n'empêchent pas une installation conforme aux préconisations de pose. La colle (type polyuréthane ou MS polymère) comblera facilement ces manques lors du collage.

• Eventuele onregelmatigheden in de vlakke onderzijde van uw douchebak vormen geen belemmering voor een installatie conform aan de gestelde richtlijnen. De lijm (type polyurethaan of MS-polymeer) vult eventuele openingen makkelijk op tijdens het lijmen.

• Eventuelle Unregelmäßigkeiten der Oberfläche an der Unterseite Ihrer Duschwanne haben keinen Einfluss auf die Installation gemäß den Einbauempfehlungen. Der Klebstoff (Typs Polyurethan oder MS-Polymer) gleicht diese Unebenheiten beim Verkleben problemlos aus.

• Aspirer le dessous de votre receveur avant la pose

• Stofzuig de bodem van de douchebak voor de installatie

• Saugen Sie den Boden der Duschwanne vor der Installation ab

F

Tracer la position de la bonde et réaliser un montage à blanc de la bonde et du receveur

Le receveur ne doit subir aucune modification (sciage, meulage de renfort...) autre que celles prévues par le fabricant.

- ① - silicone de finition traité antifongique de 5mm de largeur minimum
- ② - silicone d'étanchéité souple traité antifongique
- ③ - élément de soutien du joint silicone
- ④ - silicone d'appui

Il est indispensable d'avoir un support imputrescible sur tous les côtés du receveur.

### Pose directe au sol ou encastrement bord à bord

Prévoir une zone de bonde plus basse que le sol

### Supportage du fond

Avec pieds fournis en option

Le montage d'une *soupape anti-vidé* est nécessaire pour une utilisation optimale si un autre appareil sanitaire est raccordé sur la même évacuation.

Pendant toute la durée des travaux, protéger le receveur contre toute agression : brûlures, chocs, rayures, décapants...

Sol rigide et non humide indispensable

### Pose directe au sol

### Encastrement bord à bord

Markeer de positie van de afvoer en bepaal de plaats van de afvoer en de douchebak

Voer geen aanpassingen uit aan de douchebak die niet zijn voorzien door de fabrikant (zagen, slijpen)

- ① - Schimmelwerende siliconenkit met een lengte van minimaal 5mm
- ② - Siliconenkit voor een waterdichte afwerking, met schimmelwerende werking
- ③ - Steunelement van silicone pakking
- ④ - Siliconen ondersteuning

Breng een schimmelwerende afdichting aan, langs alle zijden van de douchebak.

### Installatie op de vloer

Voorzie een afvoerhoogte in de vloer

### Versteviging van de ondergrond

Optioneel geleverd inclusief stelpoten

Bescherm de douchebak tijdens de werkzaamheden tegen brand, schokken, krassen etc.

Voor een optimaal gebruik is de montage van een terugslagklep noodzakelijk indien een ander sanitair toestel wordt aangesloten op dezelfde afvoer.

De ondergrond moet volkomen vlak en droog zijn

### Direct op de grond

D

Die Position für den Ablauf anzeichnen und vormontieren

Die Duschtasse darf in keiner anderen als vom Hersteller vorgesehenen Art und Weise verändert werden (durch Sägen, Schleifen etc.)

- ① - Pilzhemmendes Silikon mit einer Mindestbreite von 5mm
- ② - Weiches pilzhemmendes Dichtsilikon
- ③ - Stützelement der Silikondichtung
- ④ - Sanitärsilikon

### Montage direkt am Boden oder bündige Einbettung

Für den Ablauf eine Aussparung unter dem Boden vorsehen, Mindesttiefe 70mm

### Rückwärtige Tragstruktur

Mit optional gelieferten Sockelfüßen

OD

Montage eines Anti-Vakuum-Ventils  
ist notwendig für die Verwendung  
optimal, wenn ein anderes Sanitärgerät  
ist mit der gleichen Evakuierung verbunden.

Während der gesamten Dauer  
der Arbeiten ist die Duschtasse  
vor allen möglichen  
Beschädigungen zu schützen

Ein fester und trockener  
Untergrund ist unabdingbar

### Montage direkt am Boden

### Bündige Einbettung
